

MINUTES OF MEETING OF WILDLIFE RESOURCES COMMISSION BEARS BLUFF APRIL 6, 1962

Present were Commissioners Johnson, Cox, Cantey, Heyward, Tison and Hopkins, Directors Lunz and Webb, Frank Nelson, Jeff Fuller, Ed Latimer and Pat Ryan.

Following a general discussion of the fire ant control program, a resolution was adopted opposing the current program, and stating that the Commission had not approved in the past and would not approve in the future the plan of treatment announced for the Charleston area.

The action was taken after Director Lunz had related negotiations with Federal and State agencies and explained the heavy damage that might be incurred by larval shrimp and fish; and after Director Webb had stated that he had not approved the control program.

Mr. Heyward said that he would give a statement of the Commission's attitude to the Charleston papers.
